GETTING SUPPLY CHAINS BACK ON TRACK

YOUR CHALLENGES

Unstable transport processes

A lack of transparency throughout the transport chain

Cost pressures vs. performance

Dynamic day-to-day operations

Flexible resource management

We have sufficient capacity and reliable resources to ensure stable, punctual and high-quality transport services – supported by close operational coordination between train drivers, carriage supervisors and the dispatching team.

Coordinated operational chain

We have a strong operational presence throughout the entire transport chain: train drivers, carriage supervisors and dispatchers work closely together – based on clearly defined communication structures.

Quick response

We ensure that all operational units are staffed optimally – with a personalised and needs-based approach to workforce management, and flexible resource planning – with a view to maximizing both cost efficiency and performance.

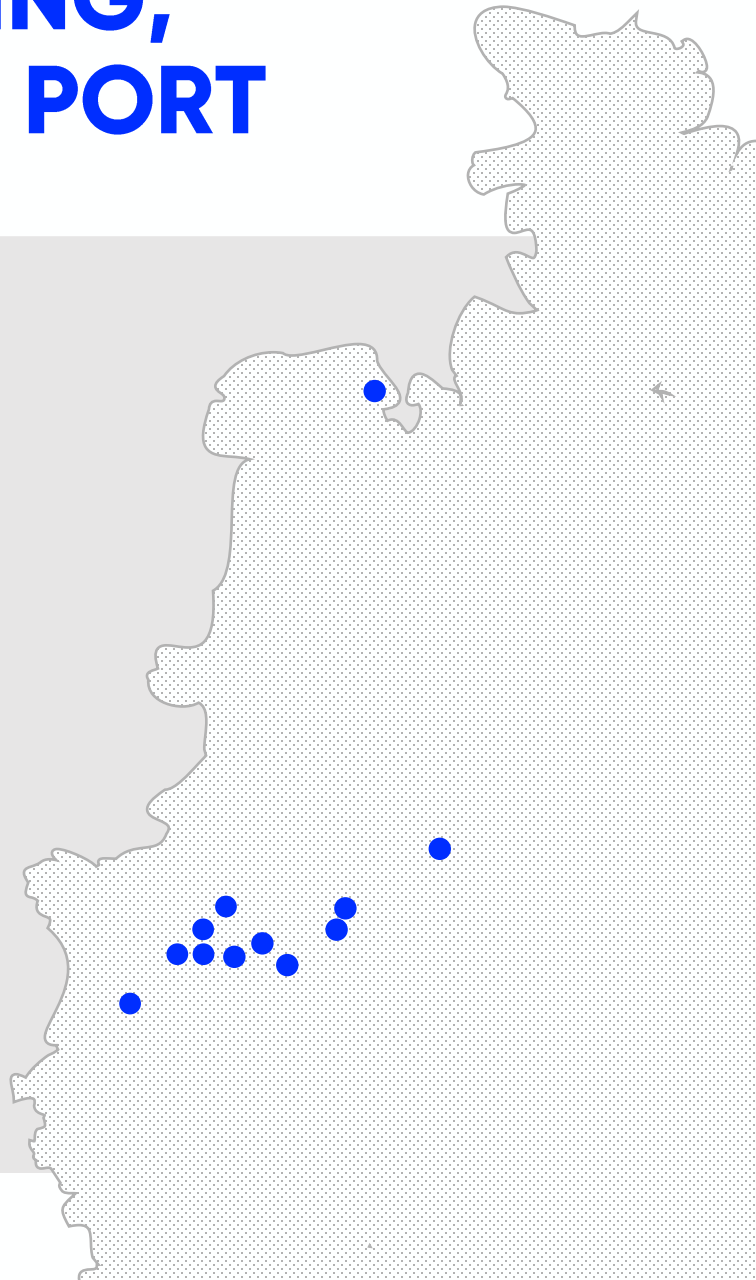

Operational stability

We respond flexibly to last-minute changes and operational disruptions, ensuring operational stability even under constantly changing conditions.

OUR SOLUTIONS

IT'S UP AND RUNNING, EVEN BEYOND THE PORT

- Bönen
- Marl
- Gladbeck
- Bottrop
- Krefeld
- Oberhausen v.v. Moers
- Castrop-Rauxel
- Herne
- Dortmund
- Hamm
- Gütersloh
- Wilhelmshaven v.v.
(possible at any time if required)
- and others ...

Regional shuttle services within a 150-kilometre radius of the Port of Duisburg, as well as rail services throughout Germany.

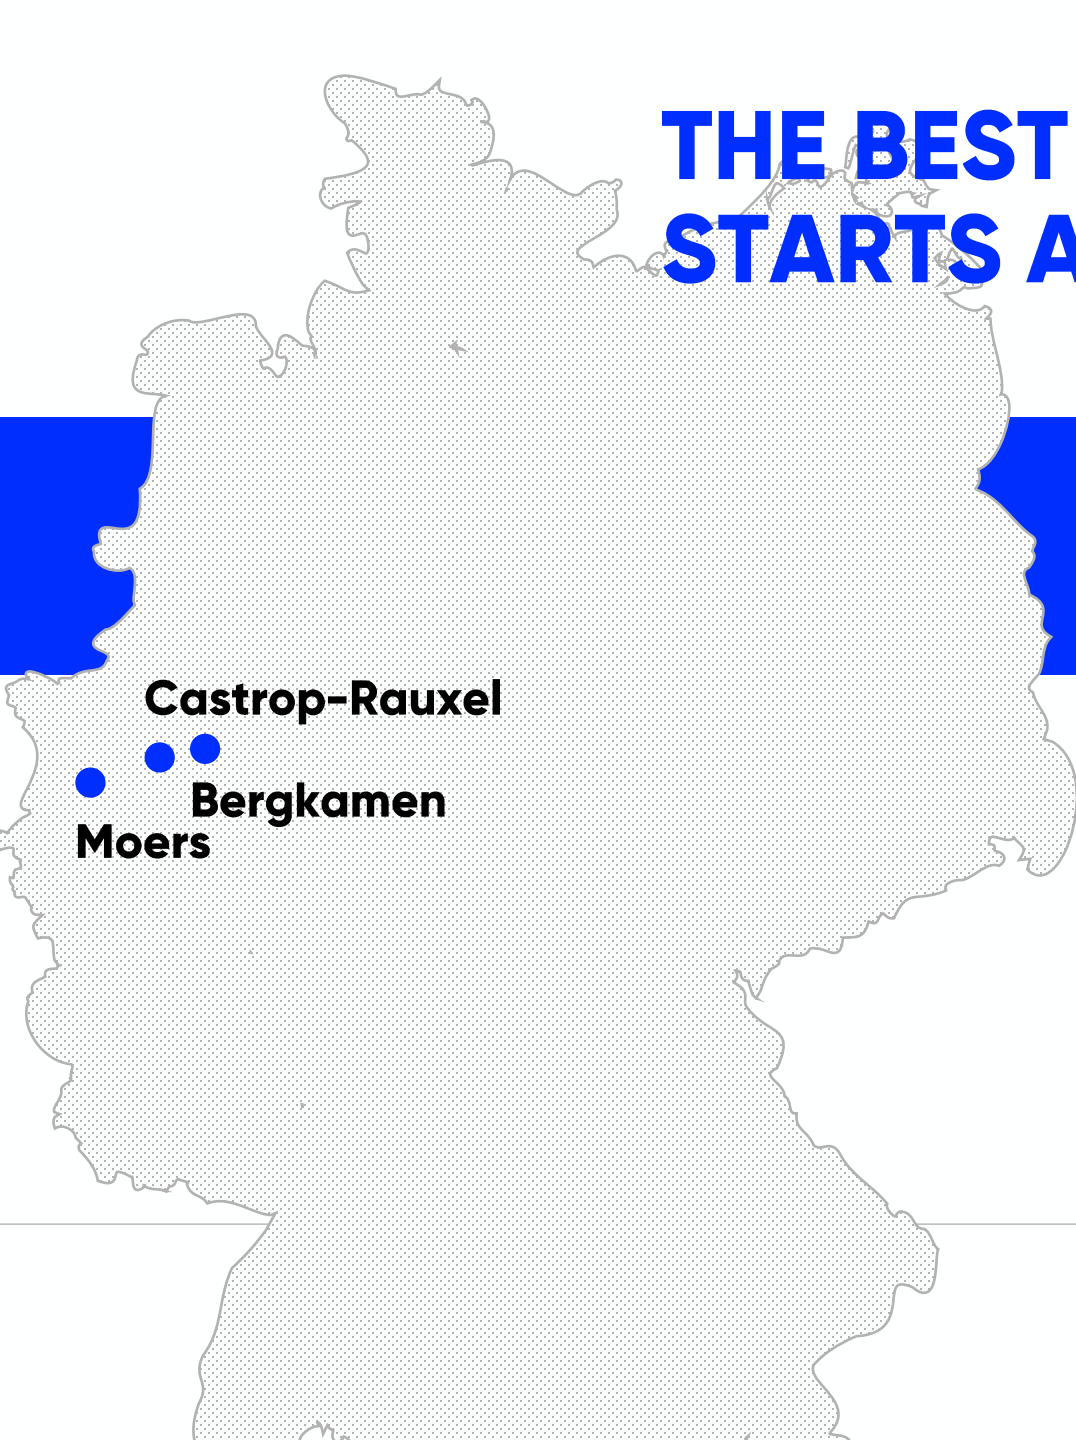

THE BEST CONNECTION STARTS AT THE FACTORY

Works shunting service

Specialist in industrial railway operations

Planning and operational management of marshalling and logistics processes directly at the customer's premises

Carriage Master services

OPERATIONAL RELIABILITY IS IN OUR DNA

Vehicle technical inspections to ensure safety and roadworthiness

- Co-operation and network transport: Integration into supra-regional transport operations (e.g. with DB Cargo or other rail operators)
- Processing of rail operator services
- Loading advice & specialist solutions: Support for specific requirements
- Quality checks: Special vehicle inspections and ensuring quality standards
- Transfer journeys: Transport of carriages and (electric) locomotives to and from workshops

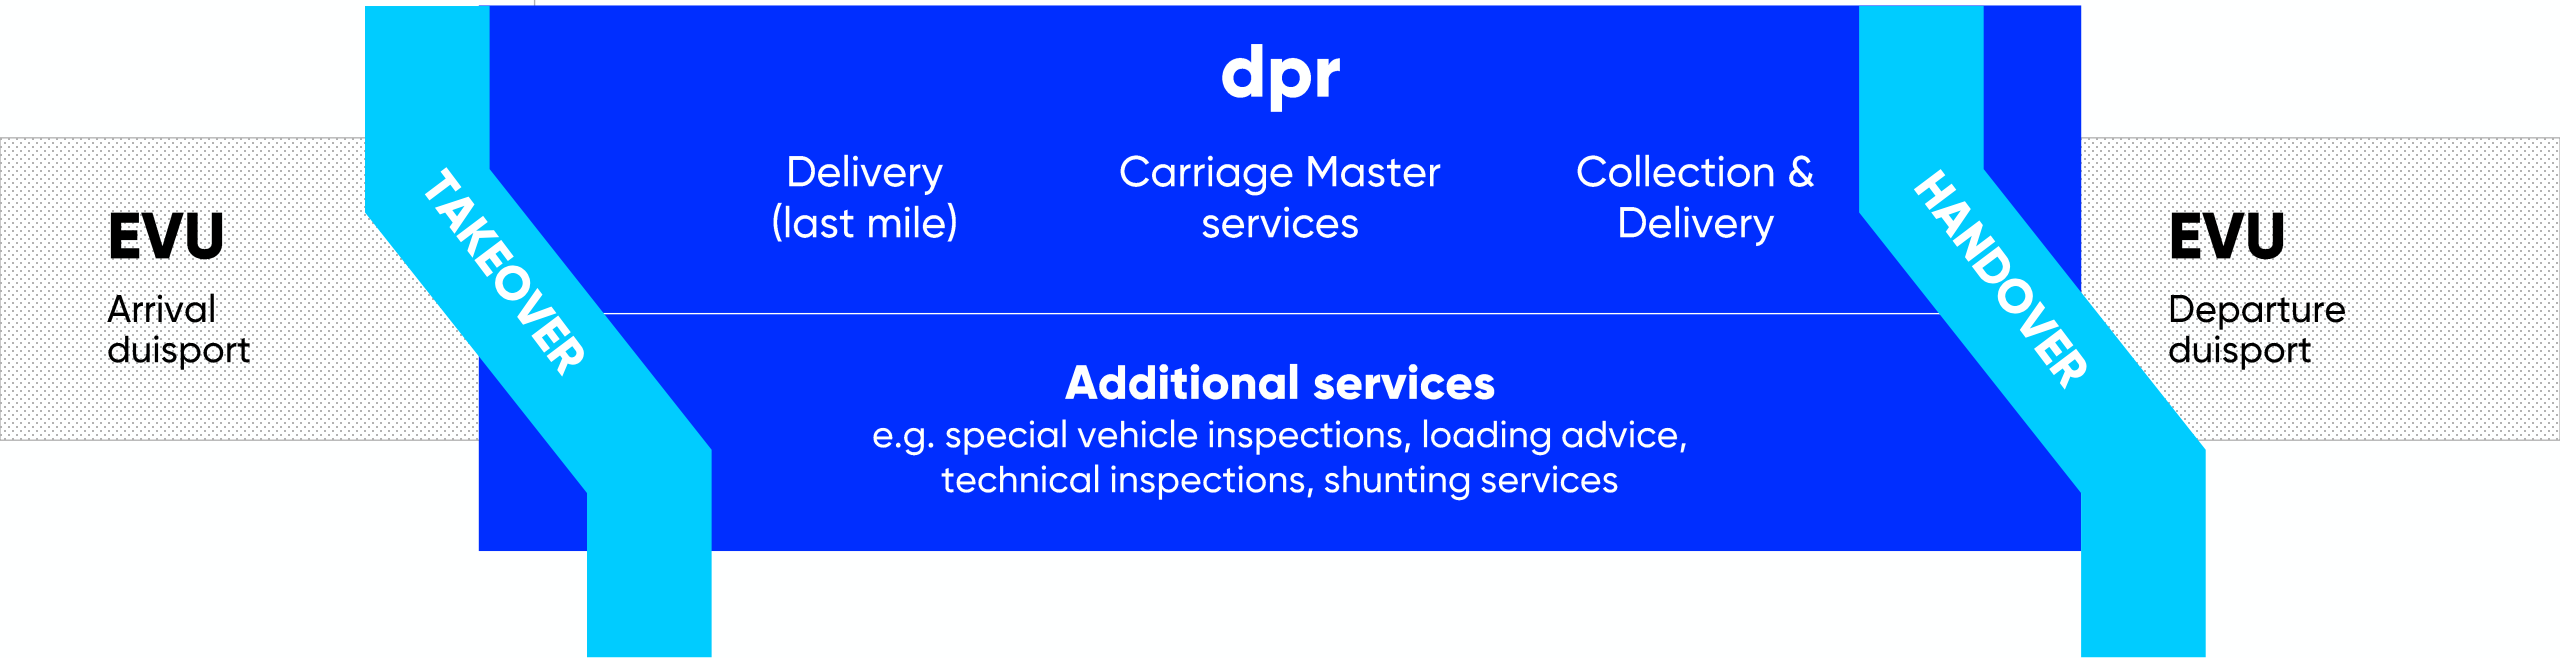

Shunting services

THE BEST CONNECTION TO THE PORT

First- and last-mile transport services

Delivery and collection of block trains and individual wagons at the port and throughout the region, at terminals, tank farms and customers' premises

Goods transported

WE'RE HAPPY TO GO THE EXTRA MILE FOR YOU

Hazardous goods
(excluding Classes 1 (explosive) and 7 (radioactive))

Non-hazardous waste (Collection and transport)

Animal by-products
(Category 3 material) (No risk to humans or animals)

Conventional carriages and trains
(bulk goods, steel, etc.)

Combined transport trains

A wide range of services and an experienced team

Port of Duisburg | Port of Duisburg-Ruhrort | Duisburg-Hochfeld Nord |
Duisburg-Rheinhausen (logport I) | Duisburg-Wanheim (logport II)

CLOSELY INTERCONNECTED FOR STABLE CONNECTIONS

Case study: Flooding disrupts rail services

BACKGROUND

- Client: a leading company in the pulp and paper industry with a plant in Emmelsum (Wesel)
- Problem: A railway bridge damaged by heavy rain and flooding was cut off from the railway line and had to be repaired at short notice for a period of two years

SOLUTION

- duisport rail GmbH (dpr), in collaboration with duisport logistics & port services (dlps), developed an alternative logistics solution at short notice
- Rerouting of shipments from Austria via the Port of Duisburg, with transshipment at Rheinhausen

Benefits

- Alternative transport solution implemented in the shortest possible time
- High reliability despite infrastructure constraints
- Stabilisation of the entire supply chain over a period of almost two years

Our 'Make It Possible' System

Working closely together, we deliver rapid and comprehensive solutions for short-term transport and storage requirements.

dpr

Organization and management of rail transport (traction, dispatching, operations control)

dlps

Provision of storage capacity and handling solutions (Rheinhausen)

at duisport

ON THE RIGHT TRACK

in the double helix of structured data

duisport's digital model integrates advanced digital solutions into port and logistics processes

From artificial intelligence (AI) to real-time data monitoring to augmented reality (AR).

Architecture &
expertise

Digitization of
business processes

Data &
analyses

Digital business
models

Example projects

- **startport:** the innovation platform for logistics solutions connects start-ups with logistics companies.
- **RPIS:** RiverPorts Planning and Information System for digitalizing inland shipping.
- **TrailerPort:** the project supported by the Federal Ministry of Transport develops innovative solutions for efficient process integration of trailers in inland ports.

Digital solutions combine real-time data collection, intelligent scheduling and automated inspection processes to create an end-to-end, transparent rail logistics system.

Exemplary measures

OCR capture
automated real-time
collection of train,
carriage and status data

MARS Railbusiness
digital planning and
scheduling of services,
resources and data

RZBNeo
centralized management
of certificates and
qualifications

DIANA
Mobile, sensor- and camera-
based support for vehicle
technical inspections to enable
faster and more accurate
damage detection

dpr digital

RESPONSIBILITY WITH DIVERSITY

Sustainability as a driver of growth and competitiveness

Environmental

Multiplier and pioneer of the green transformation.

Example actions in shore-to-ship power:
69 charging points for shore-to-ship power throughout the entire port region contribute to reducing noise and pollutants locally

Social

Highly skilled and diverse teams drive innovation and ensure we are fit for the future.

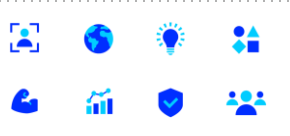

Example Diversity Charter actions:

Commitment to recognizing, valuing and integrating diversity into the world of work.

Governance

Values-based governance for sustainable decisions and long-term trust.

Example action in the development of culture and values:

Definition of 8 core values as part of the group-wide culture and strategy project.

More about sustainability at duisport

Environmental

Efficient rail operations as a contribution to low-emission logistics.

- Use of energy-efficient hybrid locomotives to reduce emissions
- Systematic environmental management in accordance with EMAS
- Specialist waste management company

Social

The focus is on safe working conditions and qualified staff.

- Certified occupational health and safety management in accordance with ISO 45001
- Ongoing training and professional development for staff

Governance

Clear processes and quality assurance form the basis for reliable services.

- Quality management in accordance with ISO 9001
- Quality Management SQAS Rail
- Standardized and transparent operational and testing processes

Sustainable duisport

Sustainable dpr

OUR ACTIONS ARE GUIDED BY OUR VALUES

Deeply rooted in our DNA

Employee-centered approach

We support and challenge one another

Sustainability

We take responsibility

Innovation

We shape the future

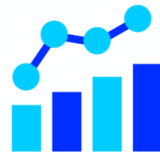

Diversity

We stand for fairness and diversity

Courage & responsibility

We move forward with courage and determination

Performance orientation

We achieve great things

Commitment

We are your reliable partner

Team spirit

We are an unbeatable team
